OUR

Welcome to **EMAAD**, your trusted partner in supplying high-quality equipment for the oil, gas, petrochemical, steelmaking, and power plant industries. Since 2011, we have been dedicated to providing our customers with the best products and services available on the market. With offices in Muscat, Oman, and Erbil, Iraq, we are committed to serving our customers wherever they are located.

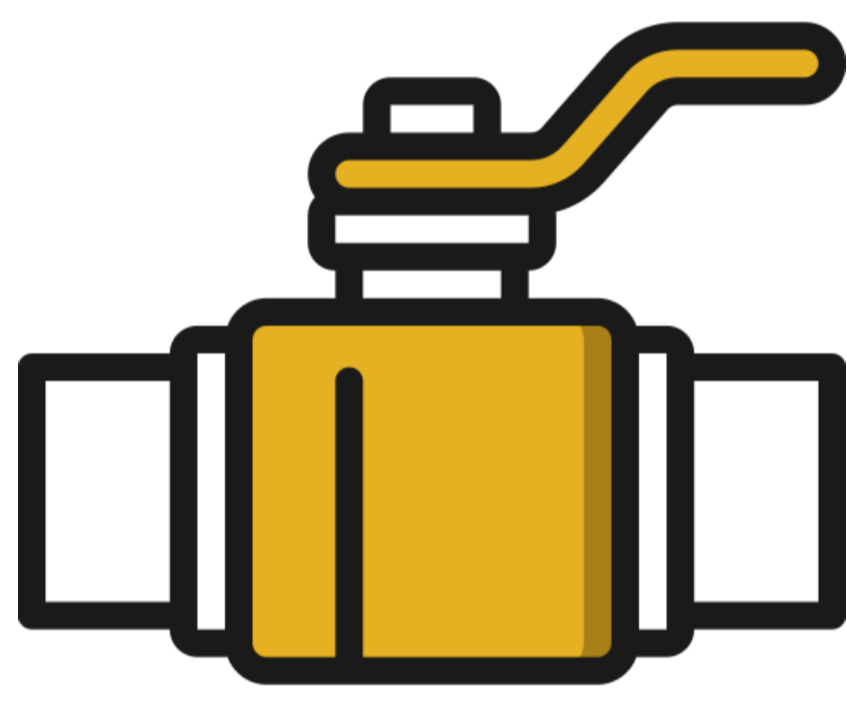

At **EMAAD, We have come to STAY**, embodying a commitment to enduring excellence and unwavering support for our valued clients.

Product Categories

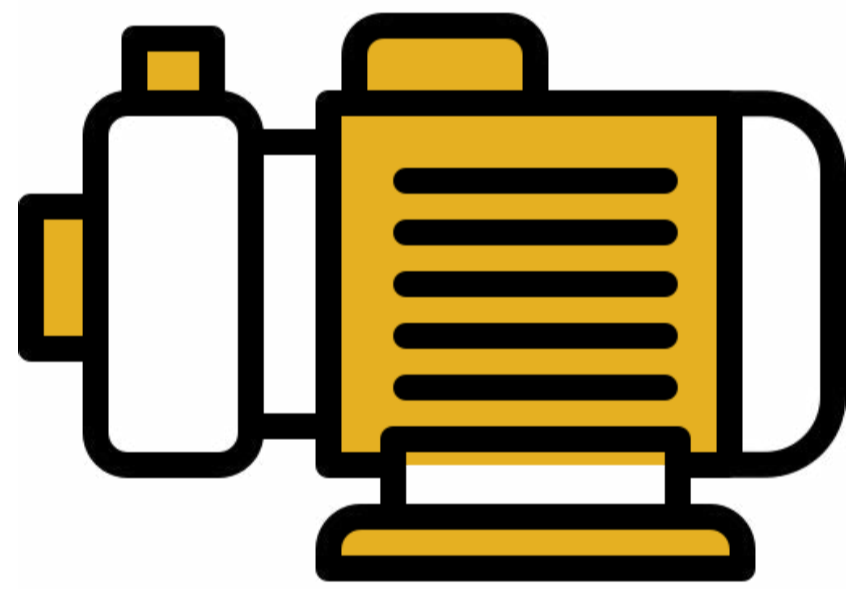

Our product categories include valves, instruments, spare parts, and more. Let's take a closer look at each category and the products we offer.

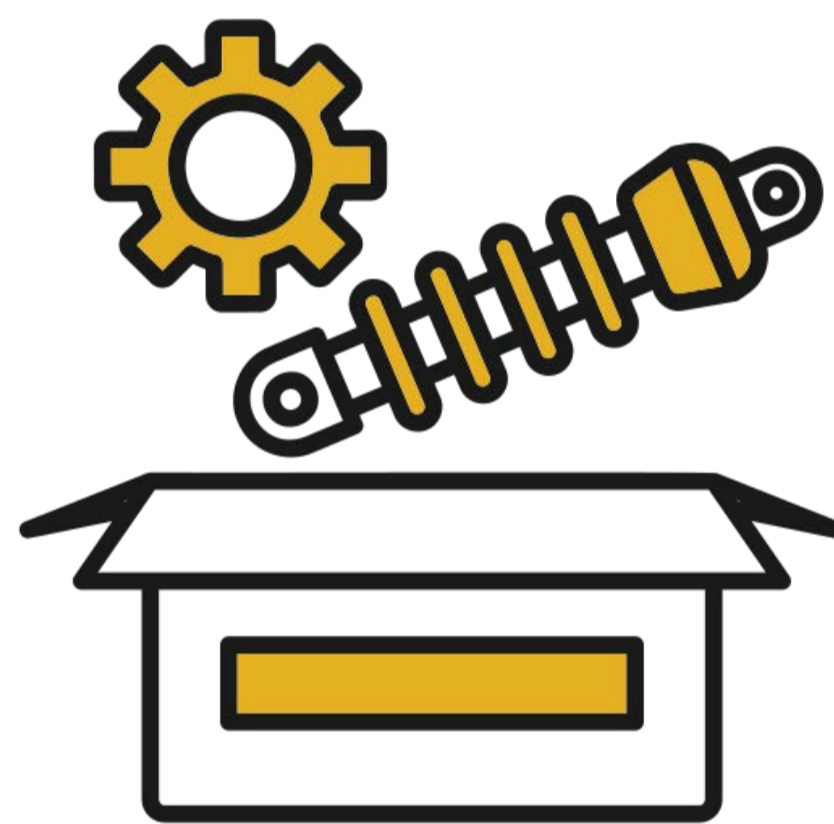

VALVES

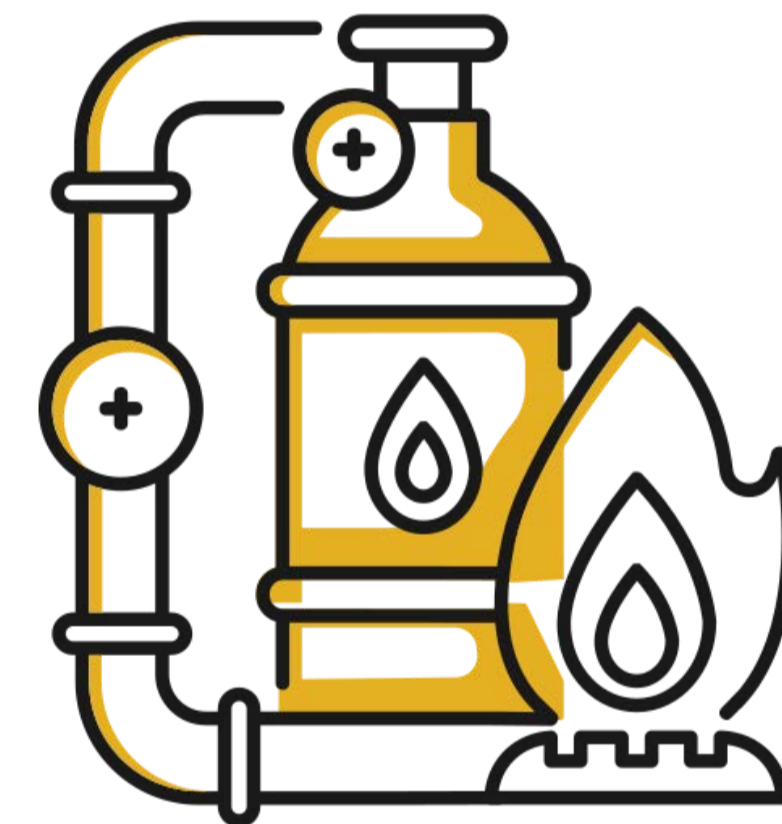

INSTRUMENTS

ROTARY

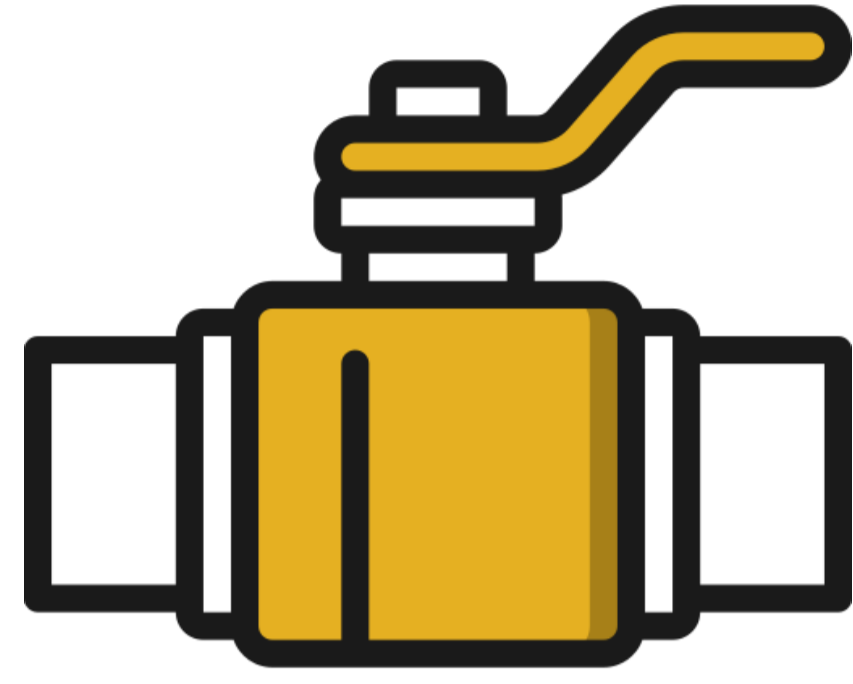

SPARE PARTS

VALVES

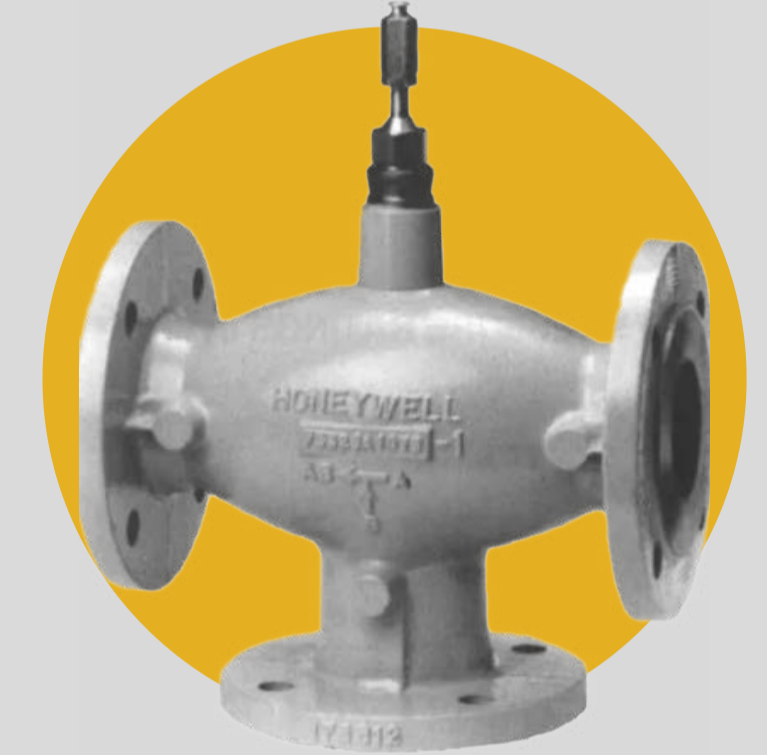

Valves:

Valves are an essential component in many industries, and we offer a wide range of valves to meet your needs. Our valve category includes manual valves, control valves, and actuators.

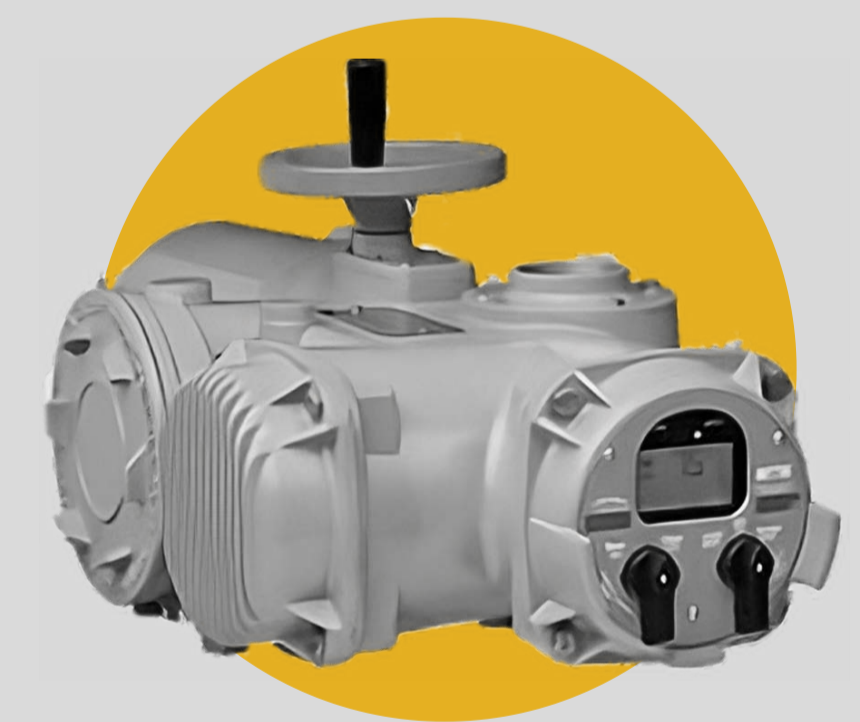

Manual Valve: Our manual valves are designed for reliable control and isolation of fluid flow. They are available in various materials and sizes to suit your specific application needs.

Control Valve: Our control valves are designed to regulate fluid flow precisely. They are available in various types, including globe, butterfly, and ball valves.

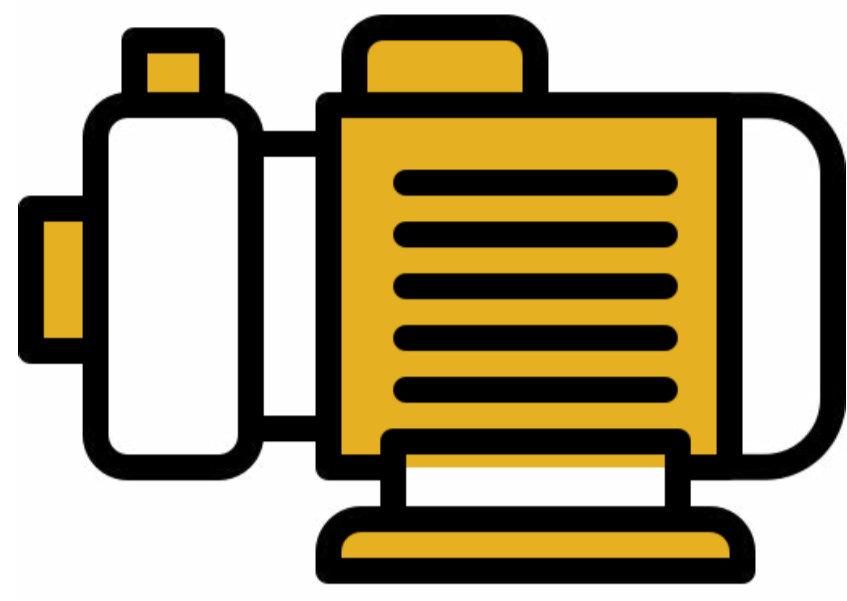

Electromotor: Our electromotor products are designed for various applications, including driving pumps, compressors, and other machinery.

We have
come to **STAY**

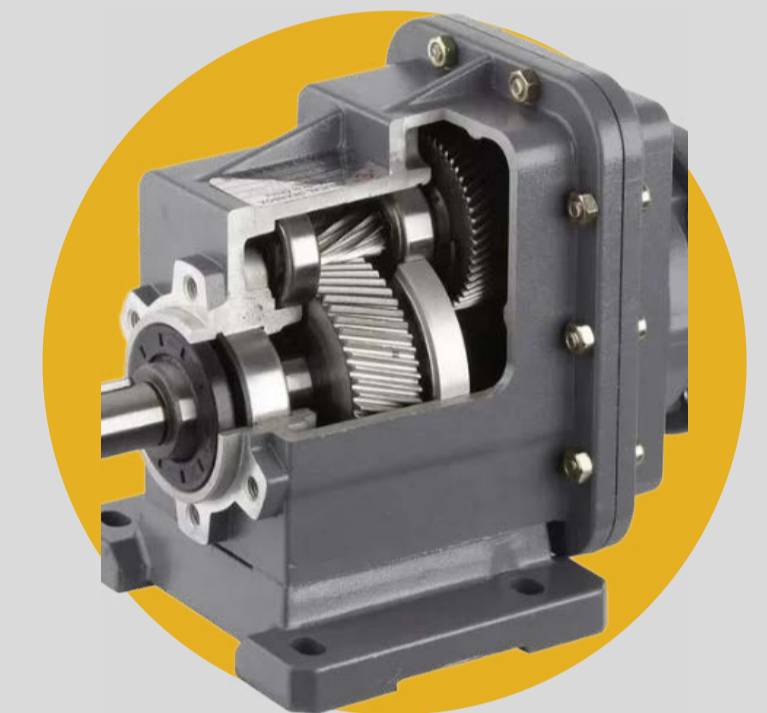

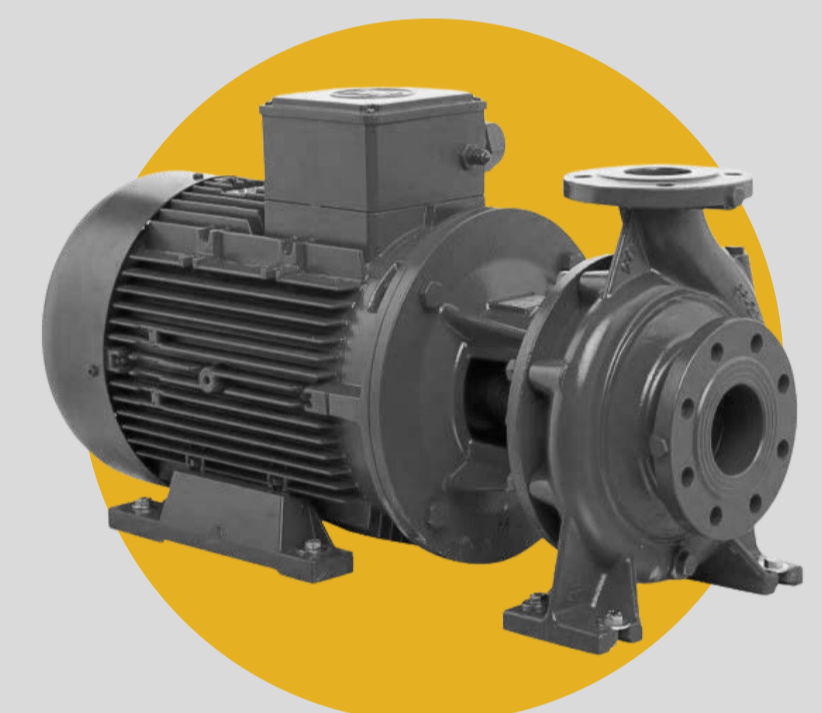

ROTARY

Rotary : Gearboxes, pumps, compressors, and electromotors tailored for peak performance in oil, gas, petrochemicals, steelmaking, and power plants. Choose **EMAAD** for unmatched reliability.

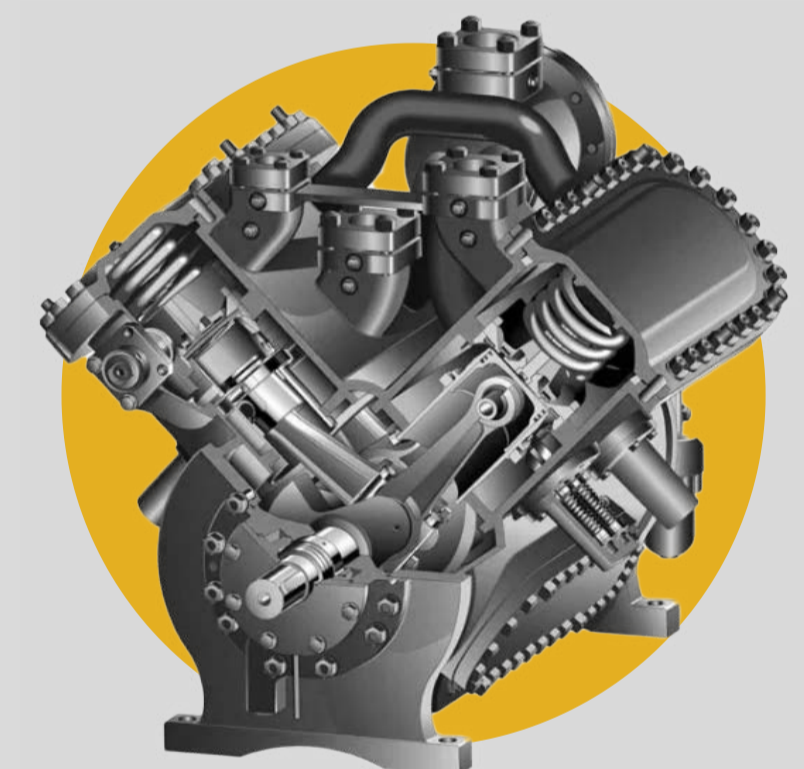

Gearbox: Our gearbox products are designed for use in various applications, including power transmission and speed reduction.

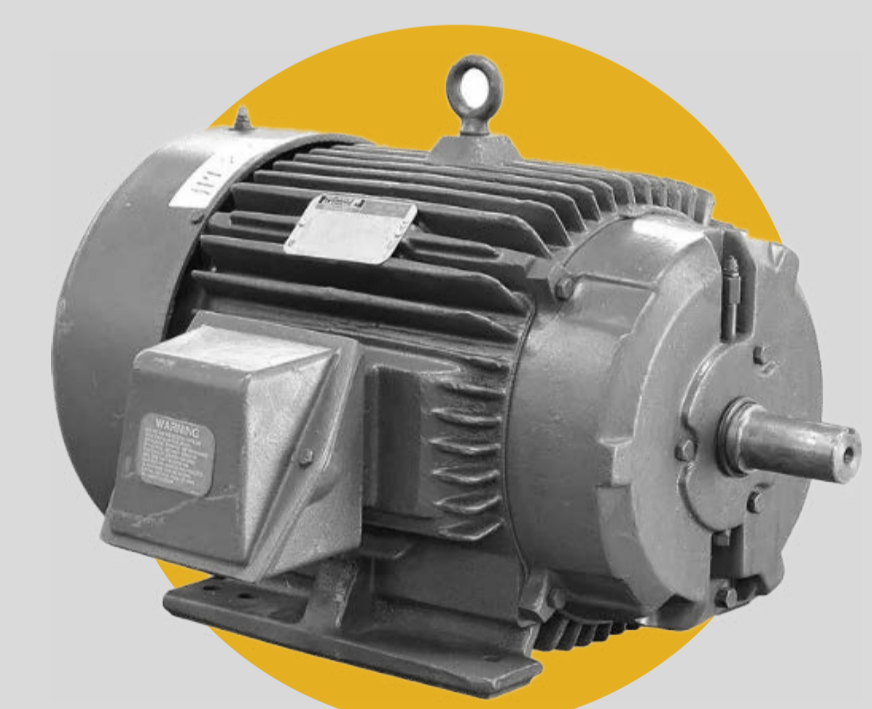

Pump: Our pump products are designed for various applications, including water supply, wastewater treatment, and oil and gas production.

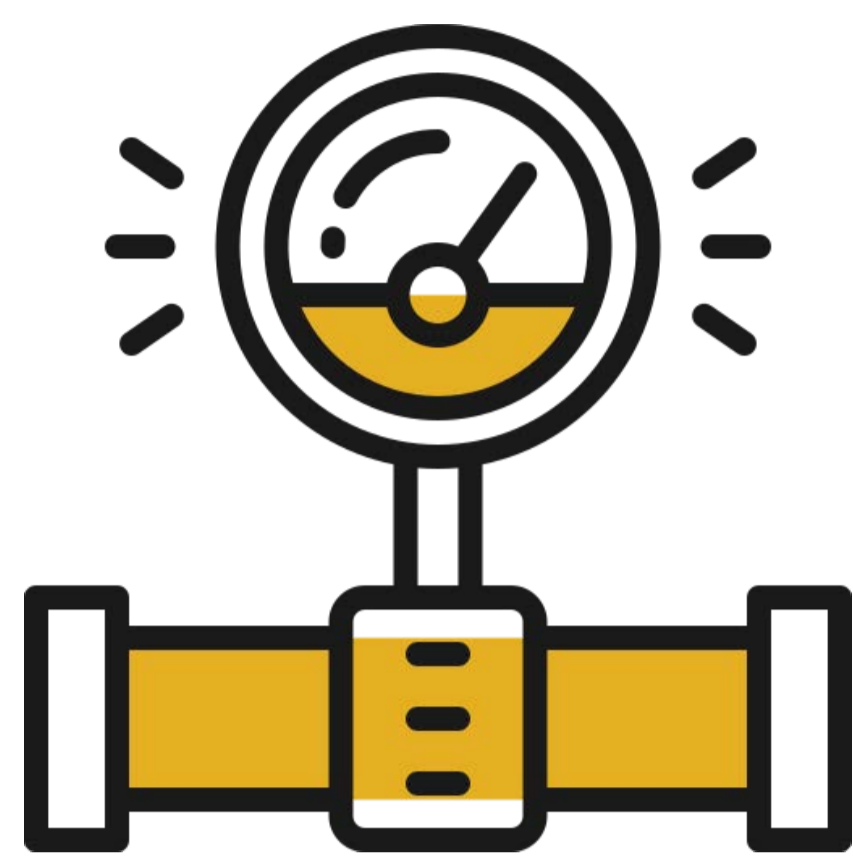

Compressor: Our compressor products are designed for various applications, including air compression, gas compression, and refrigeration.

Compressor: Our compressor products are designed for various applications, including air compression, gas compression, and refrigeration.

We have
come to **STAY**

INSTRUMENTS

Instrument: Explore precision at **EMAAD** with our instruments: transmitters, gauges, sensors, and safety products. Trust us for reliable solutions that prioritize accuracy and safety, empowering your operations.

Transmitters: Our transmitters are designed to measure and transmit various process variables, including pressure, temperature, and flow.

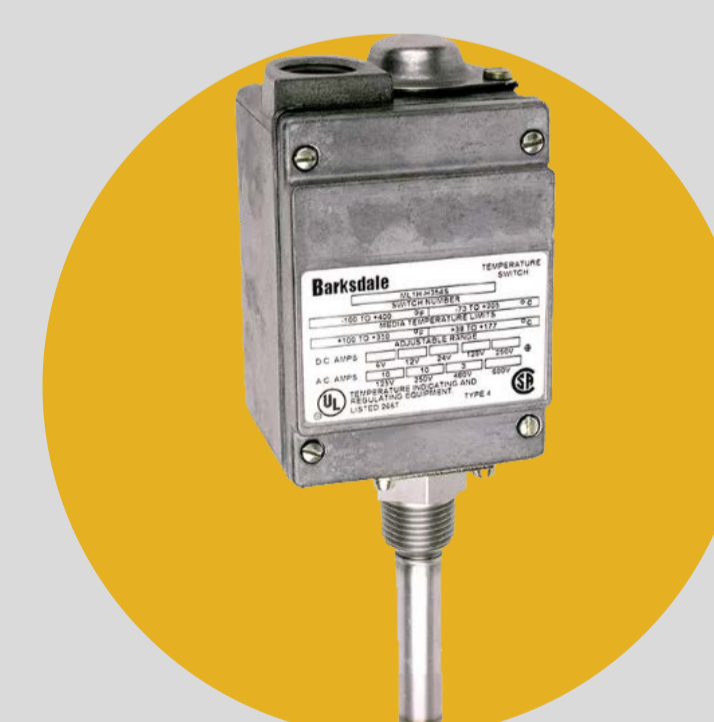

Gauges: Our gauges are designed to measure various process variables, including pressure, temperature, and level.

Sensor: Our sensors are designed to detect various process variables, including temperature, pressure, and flow.

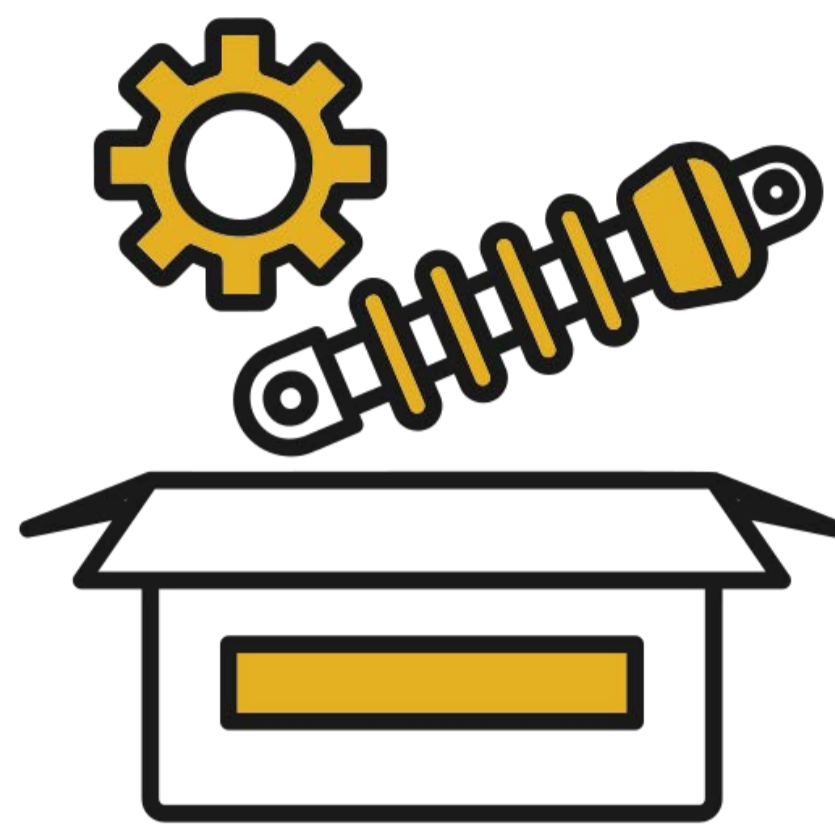

Safety: Our safety products are designed to protect personnel and equipment from accidents and hazards. They include relief valves, rupture discs, and safety showers.

come to **STAY**

SPARE PARTS

SPARE PARTS: Emaad's spare parts category includes gearboxes, pumps, compressors, and valves, ensuring seamless integration and prolonged efficiency for your industrial equipment. Trust Emaad for reliable spare parts that keep your operations running smoothly.

Gearbox: We offer a wide range of gearbox spare parts, including gears, bearings, and seals.

Pump: We offer a wide range of pump spare parts, including impellers, casings, and shafts.

Compressor: We offer a wide range of compressor spare parts, including pistons, valves, and filters.

Valve: We offer a wide range of valve spare parts, including seals, gaskets, and stems.

At **EMAAD**, we are committed to providing our customers with the best products and services available on the market. We believe that our products are of the highest quality and will meet your needs. If you have any questions or need assistance in selecting the right product for your application, please do not hesitate to contact us. We look forward to serving you.

A silhouette of industrial equipment, including a pumpjack and a tall tower, set against a yellow background. The equipment is rendered in black, and the background is a solid yellow color that curves upwards from the bottom of the page.

Logistics

With a robust presence in Iraq, Turkey, and Oman, **EMAAD** stands as a reliable force in the oil and gas industry, offering tailored solutions and high-quality products. Our dedicated team of seasoned professionals collaborates closely with clients to comprehend their unique needs, delivering customized solutions that optimize operations and boost productivity.

In Oman, our company continues to collaborate with major players in the oil and gas sector, delivering high-quality solutions that improve efficiency and reduce costs. Our experienced professionals work closely with clients, ensuring tailored solutions that meet their specific requirements.

In Turkey, **EMAAD** has emerged as a leading supplier in the oil and gas equipment sector, catering to diverse industries such as petrochemicals, refining, and power generation. Our extensive network of suppliers and partners enables us to offer a broad spectrum of products and services to our clients.

We have

Logistics

In Iraq, we have forged strong relationships with major oil and gas companies, providing them with top-notch products and services that streamline operations and enhance efficiency. Our profound understanding of the local market and commitment to delivering reliable, cost-effective solutions solidify our position as a trusted partner.

EMAAD is more than a supplier; we are a trusted ally for major companies in the oil and gas industry across Iraq, Turkey, and Oman. Our unwavering commitment to quality and customer service has positioned us as a valuable asset, helping businesses worldwide optimize their operations and increase productivity. As the industry evolves, Emaad remains well-prepared for continued growth and expansion in the future.
